Why are farmers choosing MAYA?

After 40 years of corn head manufacturing and engineering, MAYA remains committed to producing the highest quality corn head on the market. Our focus is to revolutionize corn harvesting by keeping more corn in the tank and providing our customers with more money in the bank. We offer farmers a wide range of options to meet his or her specific needs.

A wide-angle photograph of a cornfield at dusk or dawn. The sky is filled with large, textured clouds in shades of orange, yellow, and grey. The corn plants are in the foreground and middle ground, with a dirt path leading through the field towards the horizon. The overall mood is serene and agricultural.
